

NATURAL GAS THE ENERGY WE RELY ON WITHOUT EVEN KNOWING IT

From the moment you wake up, natural gas is already at work. It powers your phone alarm, lights, running water, even the glasses you put on. Natural gas fuels the world around us — often in ways we never realize.

Think you know how natural gas powers your life?

LET'S FIND OUT.

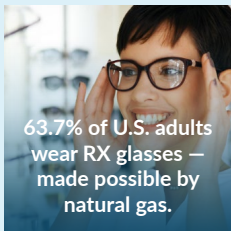

Powering (Nearly) Everything

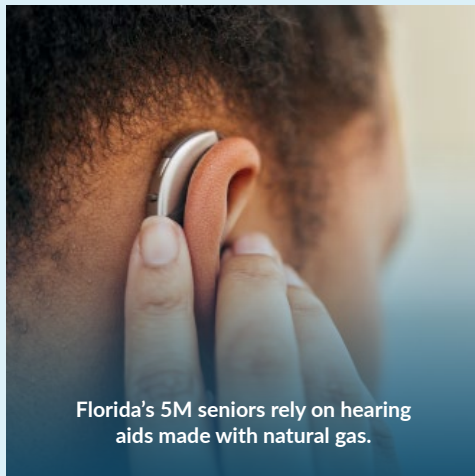

Natural gas and oil are used to make 6,000+ essential products — from eyewear to aerospace.

45+ million
Americans wear
contact lenses.

63.7% of U.S. adults
wear RX glasses —
made possible by
natural gas.

Florida's 5M seniors rely on hearing
aids made with natural gas.

90% of eye injuries
can be prevented with
protective eyewear —
made by natural gas.

400 CNG vehicles
are registered in
Florida.

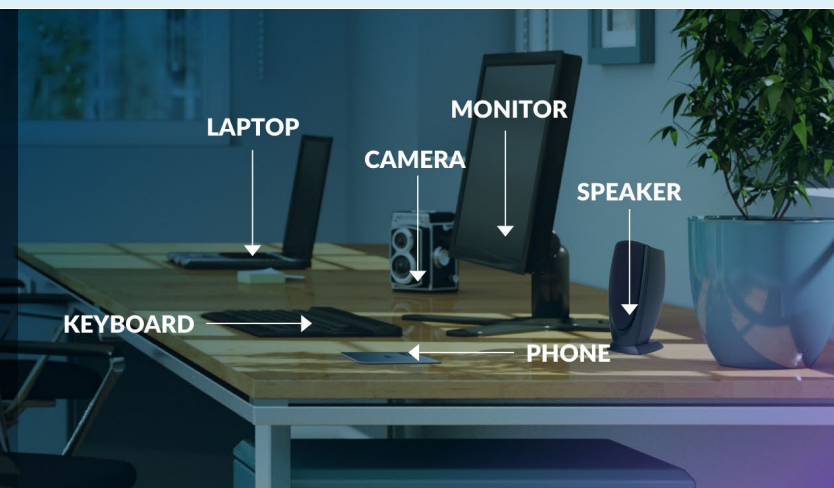

Spacesuits keep astronauts safe thanks to
materials made with natural gas.

Manufacturing contributes \$84.1B to Florida's GDP — much of it powered by natural gas.

Strengthening Technology

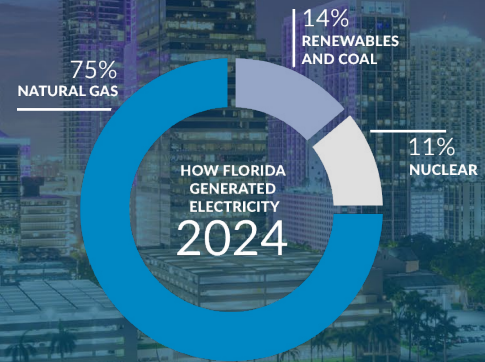

From AI data centers to your smartphone,
natural gas keeps the digital world running.

Find your local utility — unlock potential incentives.
